

American Gemological Laboratories™
America's first and most highly respected origin lab.

Founded in 1977,
AGL is an internationally recognized gemstone testing facility, specializing in comprehensive colored stone analyses.

AGL has the distinction of being the first laboratory in the United States to issue Country-of-Origin reports. Our company and its principals have a long tradition of research into the detection of and reporting on gem identification- and-classification, gemstone treatments and provenance determinations.

Our staff is composed of experts in the field of gemstone testing and reporting. Our findings reflect the latest knowledge and analytical techniques to ensure the highest standards are applied on every stone we test.

AGL's testing and reporting methodology provide you with unsurpassed quality and reliability. We are committed to providing the highest level of service and reporting that our clients and the industry have come to expect from the AGL.

Identification

Document No: 1141243 Validation Date: 15 July 2024

Identification
Mineral Type: Natural Corundum Transparency: Transparent
Variety: Sapphire Color Description: Blue

Carat Weight: 6.58 cts Shape: Octagonal
Measurements: 11.44 x 8.18 x 6.98 mm Cutting Style: Modified Brilliant Cut

Comments:

Origin

Origin
Provenance: Madagascar

Comments: It is the opinion of the Laboratory, based on the weight of evidence that the origin of this material would be classified as Madagascar.

Enhancement

Enhancement
Standard: No gemological evidence of heat Additional: Clarity enhancement: None

Comments: Non-heated sapphires are scarce. Sapphires are commonly heated to modify their color and appearance.
